Lash Extensions Aftercare

- ♥ Resist the temptation to touch your beautiful extensions or 2-3 hours after application.
 - ♥ Try not to get your lashes wet for 24 hours after your appointment.
- ♥ Oil breaks down the bond in the glue, to avoid getting oil (found in your moisturiser, makeup, cleansers etc.)
 - ♥ Resist the urge to pick or rub at your beautiful extensions.
 - ♥ No eye lash curling.
 - ♥ No mascara unless it is lash extension safe (ask me where to get some from)
 - ♥ A refill to keep them looking beautiful is required every 2-3 weeks.
- ♥ Wash your eyelashes everyday (they won't fall off). You can use a foaming oil-free lash shampoo. Gently pat them dry afterwards.
 - ♥ Make sure your eye makeup is oil-free.
- ♥ For swimming, sauna etc. use eye goggles to protect your extensions. Try avoid rubbing them too hard when you emerge from the water.
- ♥ Brush your lashes everyday (this will not only help the health of them, but will help them to sit nicely on your face).
